Westwood Colocation

Colocation done right

Westwood's partner carrier neutral data centers in Mombasa and Nairobi are designed to offer state-of-the-art redundant systems that assure network uptime, power availability, cooling, and security. Both facilities are SSAE16 Type 2 and PCI compliant. Our flexible colocation product offering allows you to scale your business as it grows. We feature power density up to 30kW per rack, flexible power options and a 24/7/365 on-site network operations staff to help service and protect your critical data and applications.

Single and half cabinets

- Locking cabinets up to 24" w x 42" d x 84" h
- 120VAC and 208VAC power availability
- Lightning fast delivery intervals

Custom private cages

- Purpose build to your size and power specifications
- Biometric hand scanner access
- Complete turnkey solution includes Wave supplied cabinets
- Interconnection panel to data center Meet-Me-Room
